Spectacular country estate in the foot hills of the Tramontana mountains, near to the village of **Bunyola** with wonderful views given that the estate contains several hills. The estate offers the opportunity to construct a residential property of 300 sq.m and pool plus agricultural buildings. It would be possible to maintain the existing construction and change its usage to an agricultural out- building, and therefore construct the new house in a part of the estate with better views.

The property offers a lot of opportunities both due to its size and its location: **vineyards, stabling for horses, olive groves**. One of the biggest advantages of the property is that it is situated a mere 10 minutes' drive from the ring road around Palma, thus providing quick access to both the city centre and the airport.
